

# Linchpin™ + SlipStream™ FAQs

**Q: Does Linchpin™ offer residual weed control?**

A: Yes. There is an approximate 30-day duration of residual weed control.

**Q: Does Linchpin™ require any additives for application?**

A: Yes, 1.5 pints per acre of methylated seed oil.

**Q: Can Linchpin be used with SlipStream (mesotrione)?**

A: Yes! Sipcam Agro's SlipStream™ mesotrione herbicide can be used with Linchpin™ at rates up to four ounces per acre for enhanced control of nimblewill, crabgrass species and other mesotrione-susceptible weeds. (See Key Weed Performance chart below)

**Q: How many gallons of water are recommended for proper application of Linchpin™?**

A: We recommend a minimum of 20 gallons of water per acre.

**Q: What is the formulation for Linchpin™ and SlipStream™?**

A: Linchpin™ is a water dispersible granule (WDG) and SlipStream™ is a liquid concentrate.

**Q: What is the packaging configuration with Linchpin™.**

A: A 3.6lb resealable container covers three acres.

**Q: What are the key weeds that Linchpin™ controls with and without SlipStream™?**

A:

**Key Weed Performance Against the Competition**

	Sedges		Crabgrass		Broadleaf Weeds
