

AMINO BOSS

THE PRODUCT

- Amino Boss ZMC** is a zinc, manganese and copper nutrition deficiency corrector for all crops. It can be used in a preventive program or at the onset of symptoms.

DIRECTIONS FOR USE

- Product should be used during ideal growing conditions to ensure effective uptake. Avoid extreme weather conditions such as heat and frost events. Spraying in the early morning or late afternoon can assist in minimising risk of rapid drying on the leaf due to evaporation. Where local experience of successful use is not available, we recommend a small scale jar test and test application prior to wide spread use. If any issues are observed do not continue with the application.
- It is recommended to add product to the tank mix after all other products have been mixed well in the tank, including most of the water.
- Do not apply by foliar application to stone fruit.
- Do not apply by foliar application to flowers or fruit of any crop.

COMPATIBILITY

Compatible with most common fertilisers and crop protection products. It is recommended to perform a jar test before mixing. Do not use with amine based products.

SAFETY DATA SHEET

For further information, refer to the Safety Data Sheet (SDS) which is available from the supplier or from our web site, www.sipcam.com.au

ZMC 351

PLANT ACTIVE CHELATE FORMULATION

Highly available plant active ZMC formulation

Total zinc (Zn) content of 3% w/v as Amino Acid Chelate

Total manganese (Mn) content of 5% w/v as Amino Acid Chelate

Total copper (Cu) content of 1% w/v as Amino Acid Chelate Total sulphate (S) content of 4.9% w/v

A unique formulation of ZMC amino acid chelate solution containing the complete range of amino acids to assist in chelation and plant performance. Recommended for foliar applications where a 100% chelated product with excellent plant uptake and good compatibility is required.

CROPS	RATE	COMMENTS
BROADACRE CROPS	Foliar 2 – 4 L/ha Furrow Injection 2 – 5 L/ha Seed Treatment 5 L/T	Apply Cereals 3-5 leaf stage. Pulses/Lucerne 10-14 days before flower Canola 4-9 true leaves.
TREES (excluding stonefruit), NUTS, BERRIES AND VINES	Foliar 1 – 3 L/ha Fertigation 2 – 5 L/ha	Apply in a water volume of 400L to 1000L per ha. Apply at regular intervals of 7-14 days from petal fall up until harvest.
VEGETABLES Cucurbits, Fruiting Vegetables, Potatoes, Carrots, Onions	Foliar & Fertigation 500mL – 2 L/ha	Apply from onset of active growth.

CAUTION: Do not apply as a foliar application in conjunction with copper and EC fungicides to stone fruit and tree crops. As Amino Boss ZMC contains a strong chelating agent, it will increase the activity of copper and levels of resulting phytotoxicity may not be acceptable to growers. For most effective results apply early morning or late afternoon.

GHS STATEMENTS - DANGER

Hazard statements

H303 - May be harmful if swallowed

H318 - Causes serious eye damage

H412 - Harmful to aquatic life with long lasting effects

Precautionary Statements - Prevention

Wear eye/face protection. Avoid release to the environment.

Precautionary Statements - Response

IF exposed or concerned: Call a POISON CENTER or doctor/physician if you feel unwell.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or doctor.

Precautionary Statements - Storage

Store in accordance with local regulations.

Precautionary Statements - Disposal

Dispose of contents/container in accordance with local, regional, national, and international regulations as applicable.

This product is NOT a dangerous good under the Australian Code for the Transport of Dangerous Goods by Road and Rail.
